DETAILED ACTION

Response to Arguments

Applicant's arguments, see Amendment - After Non-Final Rejection, filed 01/13/2006, with respect to claims 1, 2, 3, 7-11, 16, 21 have been fully considered and are persuasive. The rejections under 35 USC 103 (a) of claims 1, 2, 3, 7-11, 16, 21 have been withdrawn.

Allowable Subject Matter

Claims 1, 2, 3, 7-11, 16, 21 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: Claims 1, 2, 3, 7-11, 16, 21 are allowed because the references cited fail to teach, as applicant has, a high data rate data detection device for detecting only data of the high power level group of signals; an interference canceling device for receiving the detected data of the high power level group of signals and canceling a contribution of the high power level group detected data from the plurality of communication signals, as an interference canceled signal; and a low data rate data detection device for detecting data of the low power level group of voice signals from the interference canceled signal, as the applicant has claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
